Said notice shall be published on the same week day of at least three successive weeks in said newspaper.

Section 16. On the day advertised therefor, the treasurer shall attend at 10 o'clock a. m. at the front door of the court house of Maricopa county, Arizona and then and there offer at public auction and sell

Sec.— Township _____, Range _____ East, containing _____ acres, to _____, for the sum of \$_____, that being the amount of said assessment then due and unpaid and costs, and that being the smallest portion of said lands against which said assessment was levied that would sell at such sale for that amount.

If said land last hereinbefore described be not redeemed as provided by the by-laws of said association then _____

The book so kept shall remain in the treasurer's office and shall be open to the public inspection during business hours while not in use by the treasurer in the discharge of his duties.

Section 20. If by any reason of irregularity in the making and entry of the order of any assessment, or in the subsequent proceedings in these by-laws prescribed for the enforcement of the lien for such assessment, the sale herein provided for shall be adjudged by any court of competent jurisdiction to be invalid, the lien for such assessment shall nevertheless remain undischarged and may be thereafter enforced as provided for the enforcement of the payment of delinquent assessments.

Section 13. The Board of Governors shall deliver or cause to be delivered to the inspector of each voting precinct one package of 200 official ballots for each 50 voters and 100 for each fractional part thereof whose names appear on the election register as voters therein. Such delivery shall be at least 12 hours before the hour fixed for the opening of the polls.

CONDUCT OF ELECTION.

Section 14. The Board of Governors shall cause all polling places to be suitably provided with a sufficient number of voting booths or compartments, furnished with convenient shelves on which voters can conveniently mark their ballots and in the marking thereof be screened from observation by others, and with pencils with which to enable the voter to mark his ballot for voting. They shall also supply the polling places with proper ballot boxes and such tables, chairs and stationery as may be convenient therefor.

Section 15. One of the clerks appointed as hereinbefore provided, shall be designated by the Board to act as Ballot Clerk and the other as Polling Clerk.

The ballot clerk shall at all times be under the supervision of the Inspector and shall keep the ballots, not voted, within the polling place and within plain view of the election board and the public and deliver them only to qualified voters as hereinafter prescribed.

Every qualified voter before receiving an official ballot shall call out his name to the ballot clerks. If his name be found on the election register, the ballot clerk shall then hand him a blank official ballot, first inserting with pen and ink in the space provided for that pur-

pose the number of votes which he is entitled to cast, to be ascertained from the election register. The ballot clerk shall also, before delivering the ballot to the applicant therefor, write his name on the stub thereto and shall call audibly to the polling clerk the name of the applicant and the number of votes to which he is entitled, which the polling clerk shall enter in the poll list in the order of the application for ballots.

After the voter shall have received his ballot he may retire to mark it. Having marked his ballot he shall hand the same to the inspector, in such shape that the inspector may easily see the number of votes to which the voter is entitled as marked on his ballot by the ballot clerk. The Inspector shall then first call out the name of the voter and the number of votes he is entitled to cast as marked aforesaid, the polling clerk shall compare the number so called with that indicated in the election register, and if they agree he shall so announce, audibly, to the inspector. The inspector shall then tear off the stub at the perforated line, leaving the number of votes the voter is entitled to on the ballot and deposit the ballot in the ballot box, and announce that it is voted, which fact shall then be noted by the polling clerk opposite the voter's name on his list. The inspector shall then file the stub on a string to be used by him for that purpose. If, when the inspector announces the name of the voter tendering him a ballot and the number of votes he is entitled to as indicated by the mark on the ballot, it should be found that the number so marked does not correspond with the number of votes the voter is entitled to as shown by the election register the ballot shall not be balloted but shall be handed to the ballot clerk who shall destroy the same without noting or making known its contents or any or them; and the ballot clerk shall thereupon on demand, deliver to the voter a new ballot properly indicating the number of votes to which he is entitled.

If the voter should, in marking his ballot, accidentally or by mistake wrongly mark it, he may surrender it to the ballot clerk who shall give him a new one in lieu thereof properly marked with the number of votes to which he is entitled and destroy the old one so surrendered without noting or making its contents known. When the inspector shall announce that a voter has voted, that fact shall be noted on one of the copies of the election register by one of the judges.

Section 16. The voter to indicate the person for whom he votes and the number of votes he wishes to cast for that candidate shall write in the space to the right of the name of the candidate he votes for, the number of votes he casts for him. If the voter wishes to cast votes for several candidates for the same office he may do so by marking in

figures the number of votes he casts for the several candidates but in no event shall he mark opposite any candidate's name a greater number of votes than that indicated by the clerk in the space at the top of the ballot made for that purpose, nor shall the aggregate of the votes he casts for several candidates for the same office exceed that number.

Section 17. Substantially the following form of poll list shall be used.

or by both judges, and the ballot shall be preserved and returned as other ballots and papers are required to be returned.

Section 22. The election board must refuse to receive or allow to be deposited in the ballot box any ballot that may be offered if it be apparent that the provisions of these by-laws relative thereto have not been substantially complied with.

Section 23. The polls shall be opened at 8 o'clock a. m. on election day, the standard time to be midway between mountain (or 105 Meridian) and Pacific (or 120 Meridian) times, or what is commonly known as Phoenix city time, and shall remain open until 5 o'clock, same (Standard) time.

Section 24. As soon as the polls are finally closed the election board shall immediately proceed to canvass the votes given at the election in its precinct. The canvass must be public and must be continued without adjournment until completed and result publicly declared.

Section 25. The canvass must be commenced by taking the ballots without examination to observe their contents, and counting the same, to ascertain whether the number corresponds with the number of names on the list kept by the polling clerk and noted thereon as voting.

Section 26. If two or more ballots are found folded together the board shall determine, if it can, whether such duplication or multiplication was intentional. If the Board should conclude that such duplication was accidental then all but one of them shall be rejected and one retained, otherwise they shall all be rejected.

Section 27. If upon a count the number of ballots in the box should be in excess of the number shown by the poll list to have been voted, the ballots shall be returned to the ballot box, and the inspector shall then draw therefrom without selection, one at a time a number of ballots equal to such excess, and destroy them. The board shall then sign the poll list showing the number of persons who voted which must agree with the number of ballots to be counted.

Section 28. After the poll list has been signed as above provided for the board shall proceed to count the votes cast for the various candidates and keep count thereof as they are read aloud. As each ballot is counted or rejected it shall be strung on a string by one of the judges and preserved and returned as hereinafter provided.

Section 29. When all the ballots have been strung they shall be placed in an envelope and sealed, and the inspector and the judges shall endorse the envelope with their signatures across the seal thereof.

Section 30. In counting the votes and recording them on the counting list of which there shall be two one to be kept by each clerk, the inspector or one of the judges designated by him for that purpose, shall call off from each ballot to be counted, the number of votes cast and to be counted for each candidate and each clerk shall note the same on his counting list under its appropriate heading. In counting whenever votes from five ballots shall have been called off for any candidate for an office the calling shall cease and the votes for all the candidates for that office shall be summed up and the sums in figures set down in their proper columns, and when the votes from an additional five ballots shall have been counted for a candidate for that office the votes shall again be added to those already added and so on until all the votes for all the candidates have been counted, added and the sum of the votes for each of the candidates shall have been so ascertained and noted on the counting sheet. The members of the board shall then certify to the correctness of the counting sheet, and shall to the poll list append their certificate of the number of votes received by each candidate.

Section 31. Before the board adjourns it must enclose in a cover under seal, directed to the secretary of the association the copy of the election register on which was noted the fact that the persons therein named voted as the ballots were received the poll list and one of the counting sheets.

Section 32. The inspector shall retain the ballot box in which he shall deposit one of the counting sheets and the ballots cast at the election for the period of thirty days, when he shall deliver the same unopened to the secretary of the association.

Section 33. The sealed package containing the register, the poll list and the counting sheet shall, before the board adjourns, be delivered to one of the board to be designated by it, who shall thereafter without delay deliver the same unopened to the secretary of the association.

Section 34. Upon the receipt of such package the secretary must note thereon the day and hour of its receipt and thereafter safely keep the same and produce it unopened before the Board of Governors when it is in session for the purpose of canvassing the returns.

Section 35. The Board of Governors must meet at its usual place of meeting at 10 o'clock a. m. on the 1st Monday after each election to canvass the returns. If all the returns are not then in, the board may adjourn to await them, from day to day, but not altogether for more than six days.

Section 36. The canvass must be made in public and by opening

the returns and ascertaining the number of votes received by each candidate for office or for or against any proposition submitted to the shareholders, recording the same and declaring the result.

Section 37. The secretary as soon as the result of the election is determined shall enter on the records of the Board of Governors a statement of such result which statement must show:

1. The whole number of votes cast in each council district and the aggregate number for the whole reservoir district.

2. The name of the person for the office for which he was voted and the number of votes received by him; and if a proposition shall have been submitted to the shareholders, the general nature of the proposition and the number of votes cast for or against it.

Section 38. The Board of Governors must declare elected the persons receiving the highest number of votes given for that office and enter that fact of record.

Section 39. The secretary shall thereupon make out and deliver or send to each person so declared elected a certificate of his said election, signed by the president and secretary and authenticated by the seal of the association.

Section 40. Whenever it shall be proposed by the Board of Governors to undertake any work, make any purchase or incur or authorize any indebtedness except for the ordinary operation, maintenance and repair of the works and business of the association, the cost or amount whereof in any one year shall or may exceed fifty thousand dollars, a special election may be called for the purpose of submitting the question of the ratification thereof to the shareholders of the association in the manner hereinafter provided.

Section 42. Upon the receipt by the chairman of the council of the said resolution and proposed undertaking he shall issue his call for a special meeting of the council if there be no regular or adjourned meeting thereof then appointed for a time within 11 days of the time of the receipt of said copy of said resolution and proposed undertak-

Said call shall bear date of the date of its issue, be signed by the chairman and countersigned by the clerk of the council and written or printed copy thereof shall be delivered or sent forthwith to each member of the council then within the reservoir district.

Section 43. On the day fixed in the call or its meeting then appointed within 11 days next after the transmission of said resolution and proposed undertaking to the chairman, the council shall meet at its usual place of meeting and consider the resolution and proposed undertaking. If the council shall approve the same they shall adopt a resolution to that effect and transmit the same with all the papers in the matter to the secretary of the association.
